Have the \$35 5 gig plan. For the life of me I can't get the hot spot feature to work. I think it's disabled on this phone. Does anyone know a work around? I've tried all sorts of apps and Google. If I can't get it working on this phone is there another phone I can buy to get the hot spot working on total wireless? I need Verizon service but also need the ability to tether. Thank you ahead of time! 11-19-2016, 12:45 AM #2 Try either foxfi or pdanet 11-19-2016, 01:40 AM #3 Originally Posted by Kdsheen Just purchased a cheap ZTE Citrine LTE on Total wireless. Thank you ahead of time! I used a Verizon prepaid Moto E 2nd generation on Total Wireless while trying to get a problem free Galaxy S5 from an eBay seller. The native hotspot feature worked OK. My Moto E 2nd gen. isn't rooted. The native hotspot also works on TW on my Samsung Galaxy S5 running the stock rooted Marshmallow ROM. Thank you ahead of time! If you can't root that phone, your best (only?) option may be PDANet. If you can root, WiFi Tether Router may work. You could get a Moto E 2nd gen or Moto G4 Play from Verizon Prepaid and put your TW activated SIM in that phone before turning it on and see if it works. 11-19-2016, 08:54 AM #5 11-19-2016, 07:45 PM #6 No luck with any of those apps Mentioned above. I bought this as a cheap tide over to make sure I like the service. Any recommendations On a 4.5" or larger screen, good battery life and hotspot enabled phone sub \$250? I was thinking the Moto G4 Plus. 11-20-2016, 07:18 PM #7 I can verify that hotspot works on my Moto X Pure. Thank you ahead of time! Maybe you need to setup wifi - It says to dial 611611 to setup wifi. Would that be to activate the hotspot Feature ?? 11-22-2016, 02:16 PM #9 Moto G4 Plus, even unlocked version, verifies the tethering provisioning with the SIM provider. Not sure what are the tethering conditions for TW. Sure you can root that very easy and apply corrective measures, but that's voiding the Moto warranty. 12-12-2016, 01:39 PM #10 I can confirm that hotspot works on my Nexus 5 "full stock" I have the TotalWireless \$35/5GB plan. There are 2 ways hotspot can be disabled. On the phone or via SIM verification. At least 3 users on 3 different phones have verified that hotspot works for them so I'm pretty confident hotspot is not blocked by the TotalWireless SIM. 12-12-2016, 01:51 PM #11 Originally Posted by Kdsheen No luck with any of those apps Mentioned above. Never tried it before but if you feel lucky --> 05-23-2017, 11:32 AM #12 Any updates ? I am looking at occasional laptop tethering (usb ok for me, wifi hotsot no required) using a Moto G4 Play on Total Wireless. PdaNet+ (paid version) ? Moto G4 Play hotspot ? -Thanks 05-23-2017, 12:19 PM #13 G4 Plus native tethering works fine on the TW plan. No additional changes needed. 07-22-2017, 03:12 AM #14 Purchased Total Wireless 70s ZTE Majesty Pro at Wal-Mart for ~\$30.. Became available May 2017. Hotspot works great for my laptop. Believe up to 10 units can access it at once. Best of luck. RagnaRock 07-22-2017, 09:28 AM #15 Originally Posted by RagnaRock Purchased Total Wireless 70s ZTE Majesty Pro at Wal-Mart for ~\$30..
